

# \$\$ Million dollar showers fall \$\$

You might call it a million-dollar rain.  
Or if you're the gambling type, you might call it a ten million-dollar rain.  
Whatever its dollar value, the rain's timeliness can't be argued...it came just when we needed it. And though the amounts varied over the county, almost everybody benefited from it.

County Agent Glenn Bragg said last week's showers which dumped from .25 inch to 2.60 inches on Medina County "saved all the dryland grain crops in the county."  
"About 80 per cent of the grain sorghum crop had been deep planted, some of it more than six inches, to reach the moisture level.

"This rain filled the gap between the deep moisture and the surface. We could probably make some grain sorghum on the strength of this rain and all that deep moisture left over from last fall's rain," Bragg said.  
"Of course, the other 20 per cent of the grain sorghum croplands hadn't been planted at all because

of the lack of moisture. Now they'll have a start, too."  
"If additional spring rains come to the county on schedule, we could have saved as much as ten million dollars as a result of those showers," Bragg added.  
"At any rate we saved one million dollars on small grains—wheat and oats."

Bragg indicated that about 200 thousand bushels of small grains, worth about \$1 million, can now be harvested barring disaster.  
Additionally, the value of rainfall on Medina County rangelands is extremely high to stock raisers. New grasses and spring weeds will be given a boost by the showers.  
At a time when worried ag-men

talked about drought for the first time in years, the downpour was a timely one. While it didn't put money in the producer's pockets, it at least promises a start on this summer's crops.

(See rain map elsewhere in this issue.)

### CONGRATULATIONS TO PARENTS

... who presented "the other side" of the school story on Channel 5 - KENS-TV Saturday night.

There definitely is another side to the story, especially when you consider the fact that less than seven percent of the total scholastic population is involved in the boycott.

So those parents of the Mexican-American community who circulated a petition, which already has more than 300 names on it I am told, in support of our schools are to be congratulated.

Then, they accomplished the almost impossible in this day and time. They got television coverage on prime time Saturday night. Those who saw it were extremely well pleased at the results of these parents' efforts.

And I say "amen" to Mary J. Lopez' statement in the San Antonio newspapers which said: "These people [Raza Unida] are putting down the town and are upsetting a lot of people."

At least two years ago when "things were stirred up again" there were meetings at the Hondo City Park at which statements were made about "making Hondo another Crystal City."

We are extremely fortunate that our residents do not fall for militant line. And proof that they haven't was given by Mary when she quoted figures to show that of 1,133 Mexican-American students in our schools only 65 [two have returned] are boycotters.

All of us owe Mary and the other citizens who circulated the petition a resounding vote of thanks. I for one am proud of them.

### IT'S ALWAYS A PLEASURE

... to welcome a new business in town and in saying "we're glad you're here" to R. J. and Linda Chapa and their Carpet and Drapery Design shop on Avenue M, let me add that they have done wonders in decorating that vacant building.

### KEN FOOTE

... a former Hondo resident who "gave up the good life" to move way down to Sinton came all the way "home" Saturday to attend the John Poerner rally at the American Legion Hall.

But, darn it, sometime Saturday afternoon he suddenly became ill and had to be hospitalized. We were happy to know it was not his heart.

### HARRY NAGLE

... another former Hondo resident, now living in Big Spring was not so lucky. Harry suffered a heart attack recently and is now on the inactive list until the doctor gives him the thumbs up sign.

Both Ken and Harry belonged to the United Gas family in Hondo, and even though they transferred to other cities, they still hold a warm spot in their hearts for the town and the people.

And from what I can hear around town the people feel the same about you also Ken and Harry.

A speedy recovery to the two of you.

### LIONS CLUB

... big-wigs reminded me the other day to remind our readers that the club has a memorial scholarship fund to which interested persons might contribute money.

The fund is named after the late Nelson Bippert and has, so far, provided funds for three Hondo students to attend college. Recipients have been Belinda Herrera, Sherri Weynand and Connie Schuelling.

This year there is a high possibility the Lions will give two scholarships.

So when you're thinking of memorials, the Lions say "think of our scholarship fund—and help a worthy student attend college."

### SPEAKING OF CONTRIBUTIONS

... have you written those checks yet for the Hondo Public Library and the Hondo Little League Association?

Members of the Junior Service League are conducting a letter drive for the Library and cards have been mailed out by the Little League officials seeking funds for league operation this year.

### GOOD TV PUBLICITY

... was also obtained Sunday for Hondo when Rocky and Louise Sedgwick held the dedication of their Fohn-Bless Store building for a historical marker.

I saw the event on Channel 12-KSAT-TV and am told they had it on the six and ten o'clock news.

## Owl Band wins Sweepstakes

All three Hondo Bands made Superior Performances at the Region XI, U.I.L. Concert and Sight-Reading Contest in Fredericksburg last weekend.  
McDowell Intermediate School

Band, directed by Billy A. Harrell, received their Fifth Consecutive Award for a First Division in both Concert and Sight-Reading. This group has never received anything less than a First Division since

entering U.I.L. competition. Fredericksburg is the only other Jr. High in the Region with a longer record of Special Awards.

Hondo High School White Band, directed by Dennis Smith, received a First Division Rating in Sight-Reading and would have also received a First Division Rating in Concert had they not been disqualified on a technicality involving music selection. All four judges were impressed by the performance of this group.

The Hondo High School Blue

Band received the First Division in both Concert and Sight-Reading which qualified for a Fourth Consecutive Sweepstakes Award for the entire Owl Band since the Marching Band had previously received a First Division in Marching last Fall.

"All judges were unanimous in their praise of this group and quite complimentary of our Band Program and the credit that it has brought the school and community," Harrell said.

## Petition supports school policies

Some 200 Mexican-American families have let the Hondo Independent School District Board know through petition that they give them a vote of confidence.

The petition supporting local school board policies was given to officials Monday.

Mary J. Lopez served as a spokesman for the group and said: "We say we've never had any problems. Our children don't have any problems here."

The spokesman said that Raza

Unida is supporting the 67 (two have returned since Monday) boycotting Mexican-American students because "Raza Unida wants to get into this town. Raza Unida wants to make Hondo another Crystal City. These people are putting down the town and are upsetting a lot of people."

Figures to support the petitioners' contentions were released. They showed that of the 1,133 Mexican-American students in the Hondo schools only 67 were boycotting.

## Dedication draws many

Approximately 200 persons turned out Sunday to attend the dedication of the old Fohn-Bless Store building as a historical landmark.

They stood in warm sunshine and heard Rep. John H. Poerner speak of the historical heritage of Medina County and Hondo in particular.

Poerner said this was the 21st historical marker for the county and the third in Hondo. The other two are the old Metzger Home and the Masonic Cemetery.

He commended Rocky and

Louise Sedgwick, whose Bingo Auto Parts now occupies the historic old building, and Martin Noonan for their intense interest in Medina County history and their research into this field.

Then he gave the history of the building:

This building was first put in Old D'Hanis, in about 1878. It was erected by John Fohn, born in Prussian Hanover on May 30, 1839.

Built of native limestone that was quarried nearby, the blocks

## Game hearing set Tuesday

A public hearing has been scheduled for 10 a.m. Tuesday, March 26, in the County Courthouse by the Parks and Wildlife Department.

"Game regulations and possible changes in game laws and management have always been controversial items in Texas," State Rep. John H. Poerner said in his weekly news release.

"The landowner in our rural areas are the caretakers and custodians of our precious wildlife with the guidance from our Parks and Wildlife Department," he said.

Poerner continued: "The Legislature has the authority to pass laws affecting the harvesting of game in our State and, many times, the Legislature has given the authority to the Parks and Wildlife Department to promulgate rules and regulations."

"In either event, the wildlife belongs to the people and the people should be heard at the various hearings that are held throughout the state. It is certainly more appropriate for the Parks and Wildlife Department to hold these hearings since they have the expertise in this particular field."

"A Legislator must be a 'jack-of-all trades' since legislation covers the broad spectrum of society. It has always been my opinion that we must have a close working relationship between the landowner and the Parks and Wildlife Department to preserve 'happy hunting' in our state."

"Therefore, I hope that all citizens of Medina County will avail themselves to Tuesday's public forum on game regulations."

## Dedication planned April 20

Saturday, April 20, has been set for dedication of the new flood prevention structure on the Gilliam Ranch north of D'Hanis.

The structure, which spans the Parker Creek about ten miles north of D'Hanis, is the result of a joint effort by the Medina Valley Soil and Water Conservation District, Edwards Underground Water District, Medina County Commissioners Court and the Soil Conservation Service.

Dedication ceremonies will be held at 10:30 a.m. At that time, interested persons may inspect the site.

# Letters from the mailbox

March 18-74

Dear Editor:

I'm a citizen of Hondo, and very proud to live in a town where I attended schools. In the years I attended school I was never confronted with discrimination problems.

At present I have two children attending Hondo Schools, and am very proud and amazed to see how they have progressed and accomplished so much since my days in school.

All these fine progress and accomplishments have come from a dedicated and concern school administration system here in Hondo.

I feel we, the Mexican American people here in Hondo have NO Discrimination problems in school or any place in town.

What we the Mexican American people should look forward to, is the Brighter Future ahead for our children instead of stirring up the past, which won't accomplish anything and only serves to hurt our schools and town.

Respectfully Yours,

Arthur L. Dominguez

Mar. 16, 1974

Dear Sir,

Some people might think that I am too young to say what I am going to say.

When I read all the letters about what some

people have to say about the things going on in Hondo Schools I have to disagree with them.

When the walk-out happened I didn't go along with the disorderly people. I stuck with my friends ("good friends").

I like to play with all kinds of people. It doesn't matter to me if they're white or brown, poor or rich. (I know some people don't have friends, but they just got to stick in there and make friends.)

All humans are alike to me. Like when I'm in a crowd and see lonely people standing, I'm willing to give them a chance to make friends.

And another thing when they say we don't have a good school I have to disagree with them. I think we have one of the best schools in the state. And we have a good education program too.

But we sometimes don't stop to think that we only have one chance in life to appreciate the good life we are living.

Let's look to a brighter future with better hope for prosperity and let the things of the past remain in the past (where they belong).

Sincerely,

Melissa Dominguez

11 years old

Dear Editor,

I also am a concerned parent and citizen of Hondo who has lived here for the past 33 years. I attended

West-Ward School in the second and third grades, then I went to Lacy Elementary. (At that time, Meyer School hadn't been built). Now if

whoever wrote the letter dated March 7, 1974 claims there was no discrimination, what would he or she call it? We had three schools where a child would begin; which one was decided by the color of skin. All of this did happen then, until concerned parents, like those mentioned in the newspaper issue on March 14, 1974 did something which we all are proud of. That happened 20 or 30 years ago, and now that all of the mentioned schools are united, let's try and keep it that way.

**To the college student**  
Yes, you are in college now and are doing fine, like you did in Hondo. You had darn good grades here and I assume you are in the same boat there, right? O.K., you are getting educated, fine. But you are depriving an education from those poor little fellows that are being kept out of school at this time. Those poor kids don't know any better until later in life when

they find out, like you did. Then it's too late.

I also want to inform you that it was bad enough when they used to call us Mexican-greasers, wet-backs, Mexicans, frijoles-now you've thought of tios-tacos. Are you not now discriminating "entre la raza?"

As I said before, it is not like it used to be! There is no more discrimination as you see it. You can run around with whomever you please, black, white or brown, regardless of race, color or creed.

Why not help us give our children an opportunity to grow up with the advantages that a good education provides.

Sin mas, un "Amigo" Comments to another letter dated

March 11, 1974

You concerned parent, it is not the stubborn attitude of our superintendent, Flory, or the school board members. You have been living in this world long enough to know that wherever you go, you will have to comply with the rules or by the rules in order to keep or have a job. We elected each school board member to take care of our schools and they are doing their best to provide the best school possible.

If there is a mis-guessed

person, it's you. At the West-Ward school you would go through the 5th grade and then to Lacy. That is, if you were not a little slow in learning or etc. I didn't go through 4th or 5th grade there and I was not a smart kid, but I was always told by my parents to obey my teachers and to respect my elders.

Now stop and think about how many Mexican-Americans graduated last year. Graduation night there were 5 speakers and 3 were of our raza. Today on the high school baseball team, 5 of the 9 starters are Mexican-American, 1 black, 3 white. Do you call this discrimination against the Mexican-Americans?

Yes, I know that not all the kids now a days want to play ball, music or football and that's fine. They can just go to school; they might not get good grades, but it's not because they don't get the proper education, it's that some don't have much interest. Hondo has a hard school but when these students graduate, they will greatly appreciate this hard school, which effectively prepare them to meet and overcome the challenges they will face in the adult and competitive world.

No, I don't want you or anybody to move to Crystal City or Mexico. This is not the point, but I do say that there must be a way to solve this, without taking the kids out of school. By protest or boycott the money that is used for courts and attorneys could be used for the betterment and welfare of our schools (yours and mine). I am a taxpayer as you are.

Let us all take another look at things and explore ways by which all can contribute to the continuing betterment of our children and our schools.

Sincerely,  
(Name Withheld on Request)

Dear Editor:

There has been a lot in the news lately about the boycotting of our schools in Hondo. It might be of interest to know that this weekend (Mar 17), over 300 Mexican Americans representing approximately 200 families signed a statement endorsing the action by the school district and urging them a firm stand.

Respectfully,  
Mary J. Lopez  
P.S. Out of 1133 Mexican American students only 67 are boycotting, which means that 1066 are attending classes and happy.

Dear Editor:

As a citizen of Hondo and former student of Westward and Lacy Schools, I feel it is my duty to respond to the letter of Mr. T. A. Lopez. Eventually he is trying to mislead the people about the Westward School story.

You see when the decision by the courts was to integrate the Mexican-Americans and Anglos, it was left up to the individuals which school he attended. However, the parents of Mexican-American

cans forced all of their children to attend Lacy School. So, evidently, the Westward School was closed down. Four or five years later Meyer School was built and classes were started on Sept. of 1957.

Although I do appreciate what you, Mr. Lopez, and the other parents did for us in 1952, I would like to correct you on one other thing. You see I was one of the ones affected at this time by that change. I started in the third grade at Lacy and went through seven years of Lacy and the High School. However, while attending the Lacy and High School there were no so called Segregated classes.

Mr. Lopez, I feel that you as chairman of the American G.I. Forum was the one that was most misguided and misinformed of the bunch.

There has and always will be a way to communicate with a bunch of invisible and misinformed people, and you can start by telling the truth and asking for things within reason thru the proper steps.

Dear Mr. Lawrence:

I would like to explain how and why the Hondo High School White Band was disqualified from receiving a rating or award in last week's U.I.L. competition without making excuses although it may sound that way.

In my capacity as Band Director in charge of over three-hundred Band students, I selected several numbers from our music library for the director of the White Band, Mr. Smith, to select from. One of the selections that he chose to perform for Contest was "Norwegian Folk Suite," a number that had been on the Prescribed Music List for many years and that had been performed by one of our Bands my first year in Hondo. The U.I.L. Prescribed List is revised approximately every five years and this selection was removed the last time that it was revised.

Also, I have an additional job as Executive Secretary of Region XI. I am responsible for the supervision of all music contests in our Region. This involves some 4-5,000 students each year. I am directly responsible to a committee of School Superintendents of which Mr. Flory is Chairman. One of my duties is to check and certify all Contest entries. In the routine of doing a job you sometime feel that you know most of the lists and rules. Anyway, I did check all entries with the exception of ours since I was so sure that all of our music was on the contest list.

The Band performed their selections at the Brady Band Festival with no reference made to the selection of music by the judges. The White Band then performed these same selections at U.I.L. Contest and afterwards I was informed by the Contest Chairman that one of the judges had informed him that one of the selections was not on the Contest List. HE WAS RIGHT. U.I.L. Rule section 28

states — that an organization that does not conform to music requirements will not be eligible to receive either an award or a rating.

This does not take away from the fact that our students played a first division performance as all three judges agreed that they certainly did. This is commendable due to the fact that this is the first time that they had entered Contest as a separate group. I'm sorry that innocent students suffer because of Adult errors.

We have every right to be proud of these students for their performance. This in no way affected our Sweepstakes Award as many of the students in the White Band were in the Marching Band and the Blue Band received their First Division in Concert and Sight-Reading. Again, I am sorry for this oversight.

Sincerely,  
Billy A. Harrell,  
Band Director

Dear Citizen:

The Hondo Junior Service League is a voluntary association of young women interested in the welfare and development of the public library. It is a non-profit, non-policy making organization whose purpose is to make the library known to all the citizens of Hondo and the surrounding area so

that it will be used to the limit of its resources.

In years past, the Hondo Public Library asked for your support in the form of a donation, and it is now the function of the League to do this for them. Any person interested in supporting the continued growth of the library may contribute, no matter how small the donation.

Your donation will enable the library to supplement the limited budget of the city and county funds available. With your help there will be more funds for new books, materials, more furnishings, and eventually the expansion of the present facility.

Since our organization in May of this year, the Hondo Junior Service League has helped the library by sponsoring a book drive and making book marks for the children of the summer reading program. We are planning other projects in the near future.

# Letters from the mailbox

Dear Editor:  
I'm a citizen of Hondo, and very proud to live in a town where I attended schools. In the years I attended school I was never confronted with discrimination problems.

At present I have two children attending Hondo Schools, and am very proud and amazed to see how they have progressed and accomplished so much since my days in school.

All these fine progress and accomplishments have come from a dedicated and concern school administration system here in Hondo.

I feel we, the Mexican American people here in Hondo have NO Discrimination problems in school or any place in town.

What we the Mexican American people should look forward to, is the Brighter Future ahead for our children instead of stirring up the past, which won't accomplish anything and only serves to hurt our schools and town.

Respectfully Yours,  
Arthur L. Dominguez

Mar. 16, 1974

Dear Sir,

Some people might think that I am too young to say what I am going to say.

When I read all the letters about what some

people have to say about the things going on in Hondo Schools I have to disagree with them.

When the walk-out happened I didn't go along with the disorderly people. I stuck with my friends ("good friends").

I like to play with all kinds of people. It doesn't matter to me if they're white or brown, poor or rich. (I know some people don't have friends, but they just got to stick in there and make friends.)

All humans are alike to me. Like when I'm in a crowd and see lonely people standing, I'm willing to give them a chance to make friends.

And another thing when they say we don't have a good school I have to disagree with them. I think we have one of the best schools in the state. And we have a good education program too.

But we sometimes don't stop to think that we only have one chance in life to appreciate the good life we are living.

Let's look to a brighter future with better hope for prosperity and let the things of the past remain in the past (where they belong).

Sincerely,  
Melissa Dominguez  
11 years old

Dear Editor,  
I also am a concerned parent and citizen of Hondo who has lived here for the past 33 years. I attended West-Ward School in the second and third grades, then I went to Lacy Elementary. (At that time, Meyer School hadn't been built). Now if whoever wrote the letter dated March 7, 1974 claims there was no discrimination, what would he or she call it? We had three schools where a child would begin; which one was decided by the color of skin. All of this did happen then, until concerned parents, like those mentioned in the newspaper issue on March 14, 1974 did something which we all are proud of. That happened 20 or 30 years ago, and now that all of the mentioned schools are united, let's try and keep it that way.

To the college student  
Yes, you are in college now and are doing fine, like you did in Hondo. You had darn good grades here and I assume you are in the same boat there, right? O.K., you are getting educated, fine. But you are depriving an education from those poor little fellows that are being kept out of school at this time. Those poor kids don't know any better until later in life when

they find out, like you did. Then it's too late.

I also want to inform you that it was bad enough when they used to call us Mexican-greasers, wet-backs, Mexicans, frijoles-now you've thought of tios-tacos. Are you not now discriminating "entre la raza?"

As I said before, it is not like it used to be! There is no more discrimination as you see it. You can run around with whomever you please, black, white or brown, regardless of race, color or creed.

Why not help us give our children an opportunity to grow up with the advantages that a good education provides.

Sin mas, un "Amigo"  
Comments to another letter dated  
March 11, 1974

You concerned parent, it is not the stubborn attitude of our superintendent, Flory, or the school board members. You have been living in this world long enough to know that wherever you go, you will have to comply with the rules or by the rules in order to keep or have a job. We elected each school board member to take care of our schools and they are doing their best to provide the best school possible.

If there is a mis-guided

person, it's you. At the West-Ward school you would go through the 5th grade and then to Lacy. That is, if you were not a little slow in learning or etc. I didn't go through 4th or 5th grade there and I was not a smart kid, but I was always told by my parents to obey my teachers and to respect my elders.

Now stop and think about how many Mexican-Americans graduated last year. Graduation night there were 5 speakers and 3 were of our raza. Today on the high school baseball team, 5 of the 9 starters are Mexican-American, 1 black, 3 white. Do you call this discrimination against the Mexican-Americans?

Yes, I know that not all the kids now a days want to play ball, music or football and that's fine. They can just go to school; they might not get good grades, but it's not because they don't get the proper education, it's that some don't have much interest. Hondo has a hard school but when these students graduate, they will greatly appreciate this hard school, which effectively prepare them to meet and overcome the challenges they will face in the adult and competitive world.

No, I don't want you or anybody to move to Crystal City or Mexico. This is not the point, but I do say that there must be a way to solve this, without taking the kids out of school. By protest or boycott the money that is used for courts and attorneys could be used for the betterment and welfare of our schools (yours and mine). I am a tax payer as you are.

Let us all take another look at things and explore ways by which all can contribute to the continuing betterment of our children and our schools.

Sincerely,

cans forced all of their children to attend Lacy School. So, evidently, the Westward School was closed down. Four or five years later Meyer School was built and classes were started on Sept. of 1957.

Although I do appreciate what you, Mr. Lopez, and the other parents did for us in 1952, I would like to correct you on one other thing. You see I was one of the ones affected at this time by that change. I started in the third grade at Lacy and went through seven years of Lacy and the High School. However, while attending the Lacy and High School there were no so called Segregated classes.

Mr. Lopez, I feel that you as chairman of the American G.I. Forum was the one that was most misguided and misinformed of the bunch.

There has and always will be a way to communicate with a bunch of invisible and misinformed people, and you can start by telling the truth and asking for things within reason thru the proper steps.

Fohn had married Miss Catherine Saathoff on November 28, 1863. She was also born in Hanover, on November 9, 1841. Fohn died October 20, 1891, and Mrs. Fohn died on May 17, 1897.

In 1897, Rolf Frerichs bought the building from the Fohn Estate for \$600.00. Frerichs was a native of Ost Frisland, Prussian Hanover, having been born there on January 6, 1833. He came to Texas about 1857 and settled first in Quihi; he moved to Hondo about 1884. He married Miss Anna DeGroot on October 6, 1858, she being from Germany as well; she was born there on January 12, 1840. Frerichs died on August 18, 1913, and Mrs. Frerichs died on August 11, 1926.

The building was moved from Old D'Hanis to Hondo sometime before 1898. It was brought over by teams and wagons, according to one of Frerichs' sons, the late Henry Frerichs. It was rebuilt on this site almost stone by stone - until very recent years the name "Fohn" was still legible on the west side of it, apparently just as it had been in Old D'Hanis.

In 1890 Frerichs had sold his mercantile business (then in a frame building at this location), to his son-in-law, C. J. Bless, for \$6,005.00. Bless was born in New Fountain February 15, 1864. On December 14, 1889, he married the Frerichs' daughter, Jane Frerichs. She was born November 28, 1867 and she died in Hondo on March 16, 1935. Mr. Bless died on January 29, 1944.

From that early date to 1939, the Blesses lived in the apartments upstairs and operated the business downstairs under the name of "C. J. Bless General Merchandise."

The property was bought in 1941 by Medina Electric Cooperative, Inc. In 1963 it was bought by R. F. and Louise Sedgwick, the present owners and sponsors of the building in having it designated and recorded as a Texas Historic Landmark, dedicated here today March 17, 1974.

Some of the nieces and nephews of the Fohn, Bless and Frerichs families attending the event included: (and this was a list provided by someone)-- Betty Harralson, Ella Stiegler, Bessie Brucks, Lillie Heyen, Lena Haby, Lizzie Starnes and Rollie Bless.

Others included John Zerr and his family.

## Discussions to continue on Edwards dam

SAN ANTONIO — The executive committee of the board of directors of the Edwards Underground Water District voted at their meeting Friday afternoon to continue discussions with the property owners of a site for the proposed San Geronimo recharge dam. William H. Spice Jr., chairman of the board, reported Saturday.

Spice said he hopes the EUWD will get a green light from the property owners inasmuch as the potential for recharge of the Edwards Underground Reservoir, according to authorities of the Texas Water Rights Commission, might average as high as 2,000-acre feet per year at that location.

"This could mean a lot to the people of this area. Without the dam, anywhere from 900-acre feet to 2,000-acre feet of water per year will continue to run off and be lost to the reservoir," said Spice, who is a consulting geologist by profession and one of the founders of the Society of Earth Scientists in this country. He is a San Antonian.

In addition to Bexar, the other counties of the EUWD are Uvalde, Medina, Comal and Hays.

The San Geronimo dam would be a small concrete recharge dam on San Geronimo Creek a short distance above its crossing of FM 471. A recharge dam blocks water run-off,

holding the water long enough for it to pour into the porous limestone outcroppings of the Edwards limestone, which serves as a conduit and source of water for more than 1 million people in the area covered by the EUWD.

Col. McDonald D. Weir, engineer-general manager of the district, reported that the final inspection had been made on the Parker Creek Dam in Medina County and that it was completed.

**City Sales Tax Totals \$283,964.57 in 5 Years.**

In April 1968, Hondo citizens voted a City Sales Tax of 1 cents on the dollar. Since that date purchases of taxable items in the city of Hondo have resulted in the City receiving \$283,964.57.

This money goes into the general fund to help operate the city and has very possibly in the past five years helped prevent an increase in city taxes.

The sales tax total received by the city has increased every year with 1973 taking a big jump over 1972.

Only three months of taxes were collected in 1968 so the first check received by the city was \$9,913.61. Since that time the annual totals have reached: 1969 (\$47,402.52); 1970 (\$53,067.66); 1971 (\$56,735.77); 1972 (\$63,626.60).

The City of Hondo has not received the check for the last quarter of 1973, but it should send the annual total to a record breaking amount. For the first three quarters the total reached \$53,428.27. The final two checks were over \$18,000, which means the fourth quarter check should exceed that amount. This would run the annual amount to more than \$80,000.

ALL OF THIS MEANS ONE THING — MORE PEOPLE BOUGHT IN HONDO IN 1973 THAN IN THE PAST FIVE YEARS. AND THE MORE THEY BUY HERE THE MORE TAXES THEY ADD TO THE CITY GENERAL FUND — AND THE LESS CHANCE THEY HAVE OF EXPERIENCING A GENERAL TAX INCREASE.

**City Sales Tax Totals \$283,964.57 in 5 Years.**

In April 1968, Hondo citizens voted a City Sales Tax of 1 cents on the dollar. Since that date purchases of taxable items in the city of Hondo have resulted in the City receiving \$283,964.57.

This money goes into the general fund to help operate the city and has very possibly in the past five years helped prevent an increase in city taxes.

The sales tax total received by the city has increased every year with 1973 taking a big jump over 1972.

Only three months of taxes were collected in 1968 so the first check received by the city was \$9,913.61. Since that time the annual totals have reached: 1969 (\$47,402.52); 1970 (\$53,067.66); 1971 (\$56,735.77); 1972 (\$63,626.60).

The City of Hondo has not received the check for the last quarter of 1973, but it should send the annual total to a record breaking amount. For the first three quarters the total reached \$53,428.27. The final two checks were over \$18,000, which means the fourth quarter check should exceed that amount. This would run the annual amount to more than \$80,000.

**ALL OF THIS MEANS ONE THING — MORE PEOPLE BOUGHT IN HONDO IN 1973 THAN IN THE PAST FIVE YEARS. AND THE MORE THEY BUY HERE THE MORE TAXES THEY ADD TO THE CITY GENERAL FUND — AND THE LESS CHANCE THEY HAVE OF EXPERIENCING A GENERAL TAX INCREASE.**

New vaccine being tested is expected to reduce rabies deaths. It's so strong that only one injection is needed, instead of the current 14 to 21.

Doctors have found a blood test that shows vulnerability to lung cancer. It measures the enzyme arylhydrocarbonhydroxylase, said to be higher in those with lung cancer.

Carob, which tastes much like chocolate and is naturally sweet, is now being mixed with milk for a flavored drink. Children allergic to chocolate usually have no reaction to carob.

Now that the clotting factor of blood has been isolated and made available, many hemophiliacs can be treated at home and can lead more normal lives.

The usual symptoms of diabetes are excessive thirst, frequent urination, hunger, weakness and loss of weight. A doctor will check for excess amounts of sugar in the urine or blood.

New vaccine being tested is expected to reduce rabies deaths. It's so strong that only one injection is needed, instead of the current 14 to 21.

Doctors have found a blood test that shows vulnerability to lung cancer. It measures the enzyme arylhydrocarbonhydroxylase, said to be higher in those with lung cancer.

Carob, which tastes much like chocolate and is naturally sweet, is now being mixed with milk for a flavored drink. Children allergic to chocolate usually have no reaction to carob.

Now that the clotting factor of blood has been isolated and made available, many hemophiliacs can be treated at home and can lead more normal lives.

The usual symptoms of diabetes are excessive thirst, frequent urination, hunger, weakness and loss of weight. A doctor will check for excess amounts of sugar in the urine or blood.

Diabetics who use insulin will find their correct dosage, kept refrigerated, at DAN'S DRUG, Hwy. 90 West, 426-3305, as well as syringes. We have the oral drugs, too.

This week

## All she wrote

by Edna McDade

Look at the date of this Anvil Herald and know that, what e'er betide our Texas weather, Spring has officially arrived via the almanac.

As if in anticipation of the gladsome season, coastal March winds began to stop acting like lions last week and the weather man even allowed us a bit of rain to compensate for all the days our gardens spent in dry dock.

Would you believe that February [and until last week, March] held out for less than an inch of rain?

An old saying: "Can't fatten snakes for frogs this kind of weather!" although just what that is supposed to mean, I do not know.

While the Louis Carles of D'Hanis and their daughter, AH correspondent MARY BELLE ZERR, were in this city a few days [or has it been weeks?] ago, Mrs. Carle called me and we had an enjoyable visit by phone.

The travelers had "managed" enough gas for a trip to check on the home which Bernadette and Willie Wausson had just bought. For the proud new home owners, one of the delights must have been what Mary B called the "unveiling" of many of their wedding gifts which had been in storage at the Zerr's while the couple were living in an apartment with no room for all the little extras that "make a house a home."

Mr. and Mrs. Granville Knowles of Hondo must be very proud of the scholastic achievements of their daughter, 2nd Lt. Marian L. Knowles, of David Grant USAF Medical Center, Travis AFB and of their son, Lonnie, who is now a student at TSU, Denton.

Although I do not remember Lt. Knowles, I do remember Lonnie who helped keep the Hondo Owls in the headlines during his HHS years. Now, he is applying the same determination to a career in business.

Every good wish along the way!

Surely we don't have any bureaucrats in Medina County. But, just in case, here is some advice, second hand, which I found somewhere:

"When in charge, ponder; when in trouble, delegate; when in doubt, mumble."

Mumbling comes in handy, sometimes.

Jean [Mrs. Dale] Lindeburg, daughter-in-law of the Henry Lindeburgs, was among the attractive members of the Ladies Auxiliary to the Nueces County Pharmaceutical Association, who modeled Spring's prettiest clothes for a style show luncheon.

I told Jean I'd mail the clipping to Hondo and it is now en route.

Remembering the days when good old pinto beans were on our daily diet, at about 5 or 6c a pound, today's market prices seem unreal.

Beans recently rated a half-page story headlined "Pintos don't cost beans anymore." And that, indeed, they do not!

This staple which sold at 12 cents a pound in June of 1973, is now [going or staying] on the shelves at 60-to 63 cents locally. And, the word is that a \$1 in the future might "not be unreal".

From the story, I learned that although Texas is one of the two biggest bean-eating states [California out-eats us] the pintos "are not grown commercially in Texas." [News to me.]

One mother of seven children "all bean-eaters" told them they'd have to consider beans a special treat, maybe for dessert?

Bluebonnets seem to be in short supply hereabouts but they are adding their bit of color to the landscape. John had told me the roadsides between here and Austin were "putting on a show" and, to guard against what he calls "cabin fever" for me, we took a short drive just beyond the city limits on Sunday afternoon.

I saw enough pink buttercups, bluebonnets, paint brush, and black-eyed Susans to keep me immune from cabin fever until the next outing. At 55 mph, I find it much easier to recognize the green things bordering the roadsides.

Magazine and newspaper ads are playing up spring for all its worth and sometimes the ads do wax eloquent. Such as, "Perfumes that whisper 'I shall return', witty, flirtatious, seductive, haunting, appeal from the flowered bough, exotic serenades in gorgeous crystal hunks of bottles."

Surely, this must be an understatement? En garde, Fair Ones! Any gal who goes around smelling like all that better keep her shootin' iron handy. Forewarned is forearmed etc. etc....

This "brag" is credited to a Kansas town, in slow motion: "Heck, folks, around here it takes us ten years to catch the seven-year itch and we're a couple of years behind in scratchin'."

A CC resident is encouraging property owners to plant pine trees here. He has a dozen or more, from two to 25-foot tall, growing in his yard.

He goes to East Texas each year, buys a thousand or more seedlings [slash, loblolly and other varieties] and gives them away to anyone who will plant them. Thus far he has distributed almost 200,000 seedling in this area.

The story of his generosity and interest in beautifying the city reminds me of Hondo's Mrs. PAUL REILLY. How far such candles shed their beams!

## TIPS FOR OUTDOORSMEN

### Chases Female Mosquitoes

In case you don't know it, those pesky mosquitoes that bother you while you're fishing are females.

Not only that, they are pregnant females.

Oh boy! We've been slapping at those fems—even tried to kill 'em. And they are loaded with over 100,000 young'uns.

The female mosquito reaches maturity a few days after hatch. She is impregnated al-

most immediately by the male mosquito and she lays those 100,000 eggs in four to seven days. One female often produces millions of offspring a year.

The male mosquito is a vegetarian and he doesn't need to draw blood from us humans. Neither does the female, except while she's pregnant. But that's most of the time, and she must have a blood meal before each incubation.

There's one thing the old gal can't stand . . . and that's high-frequency sound-waves. So, what's more natural than for someone to come up with an electronic mosquito repeller called Skeeter Skat. It uses sound waves to scatter the "skeeters".

Doesn't kill 'em—just drives 'em away.

Keeping mosquitoes away from humans poses quite a problem today.

Before-shave and after-shave lotions lure mosquitoes to men—as do hair tonics and antiperspirants.

Sweet-smelling perfumes, hand lotion and face powder which the women use attract mosquitoes like a magnet.

Even what you eat may make a difference!

Dr. E. Y. Garcia, a scientist from the Philippines, was quoted recently by L. M. Boyd as having stated that the odor of bananas lingers in the air around banana eaters—and mosquitoes go for it.

So, if you're fond of bananas, mosquitoes may be fond of you.

If you've just returned from an outing recently, I know you've wondered where all the mosquitoes came from. Just remember that outside puddles, buckets, jars, bottles and even old discarded auto tires are good breeding spots.

Why not look around your own area and see how many of these things you can find—and let's fool those pesky mosquitoes!

## TIPS FOR OUTDOORSMEN

by Vern Sanford

### Chases Female Mosquitoes

In case you don't know it, those pesky mosquitoes that bother you while you're fishing are females.

Not only that, they are pregnant females.

Oh boy! We've been sleeping at those fens—even tried to kill 'em. And they are loaded with over 100,000 young'uns.

The female mosquito reaches maturity a few days after hatch. She is impregnated al-

most immediately by the male mosquito and she lays those 100,000 eggs in four to seven days. One female often produces millions of offspring a year.

The male mosquito is a vegetarian and he doesn't need to draw blood from us humans. Neither does the female, except while she's pregnant. But that's most of the time, and she must have a blood meal before each incubation.

There's one thing the old gal can't stand . . . and that's high-frequency sound-waves. So, what's more natural than for someone to come up with an electronic mosquito repeller called Skeeter Skat. It uses sound waves to scatter the "skeeters."

Doesn't kill 'em—just drives 'em away.

Keeping mosquitoes away from humans poses quite a problem today.

Before-shave and after-shave lotions lure mosquitoes to men — as do hair tonics and antiperspirants.

Sweet-smelling perfumes, hand lotion and face powder which the women use attract mosquitoes like a magnet.

Even what you eat may make a difference!

Dr. E. Y. Garcia, a scientist from the Philippines, was quoted recently by L. M. Boyd as having stated that the odor of bananas lingers in the air around banana eaters—and mosquitoes go for it.

So, if you're fond of bananas, mosquitoes may be fond of you.

If you've just returned from an outing recently, I know you've wondered where all the mosquitoes came from. Just remember that outside puddles, buckets, jars, bottles and even old discarded auto tires are good breeding spots.

Why not look around your own area and see how many of these things you can find—and let's fool those pesky mosquitoes!

### Know Safety Rules Before Plunging In

With spring fever just around the corner, the Texas Safety Association urges that eager swimmers review basic safety rules before taking the first plunge of the season.

No matter how elated the adventurous swimmer is at the prospect of mixing sunshine and water after a long winter, it is still foolish to swing from trees into water, dive from cliffs or jagged rocks or swim in swift-moving waters or near waterfalls.

Swim only in protected areas, obey safety rules enforced by lifeguards, and stay out of the water altogether during thunderstorms or when tired, overheated or chilled.

Camp Fire is for everyone. It is an adventure in living — exciting, creative and fun.

### Know Safety Rules Before Plunging In

With spring fever just around the corner, the Texas Safety Association urges that eager swimmers review basic safety rules before taking the first plunge of the season.

No matter how elated the adventurous swimmer is at the prospect of mixing sunshine and water after a long winter, it is still foolish to swing from trees into water, dive from cliffs or jagged rocks or swim in swift-moving waters or near waterfalls.

Swim only in protected areas, obey safety rules enforced by lifeguards, and stay out of the water altogether during thunderstorms or when tired, overheated or chilled.

Camp Fire is for everyone. It is an adventure in living - exciting, creative and fun.
